international students.

Tour guide - Torre civica di Castelfranco Veneto  
(2015 - 2016)

## HOBBIES

Dance for 9 years; travel; photography; bullet  
journaling.

I hereby consent to the processing of my personal  
data contained in this CV in accordance with Article  
6.1(a) of the GDPR, i.e. Regulation (EU) 2016/679.

My studies in Oriental languages, and my experiences in Japan and France, have taught me the importance of dialogue and engaging with others, leading me to develop a particular sensitivity in considering different viewpoints, often discovering new and surprising perspectives. These experiences, combined with my years of dancing, have also helped me appreciate the importance of personal expression and adaptability.

All of this has inspired me to finally pursue a Master's in UX/UI Design, where I built and honed my skills in wireframing, prototyping, and user research. My portfolio includes some practical projects I have completed during my studies.

I am excited to seek opportunities in dynamic and creative companies where I can tackle varied challenges and contribute to creating intuitive and meaningful user experiences.
