# FRANCESCA FRANZ

Passionate about UX/UI Design, with a solid background in Oriental languages and a Master's Course in UX/UI Design from start2impact, I specialised in creating intuitive and visually appealing user experiences and developed skills in wireframing, prototyping and user research. I had the opportunity to realise practical projects, some of which are included in my portfolio, at this link: [Portfolio](#).

I am looking for a job opportunity in a dynamic and creative company, where I can work on varied and challenging projects and improve my skills in solving user problems with UX/UI Design.
